

**NEW!**

## **2020 1oz 9999 PURE GOLD WAFER**

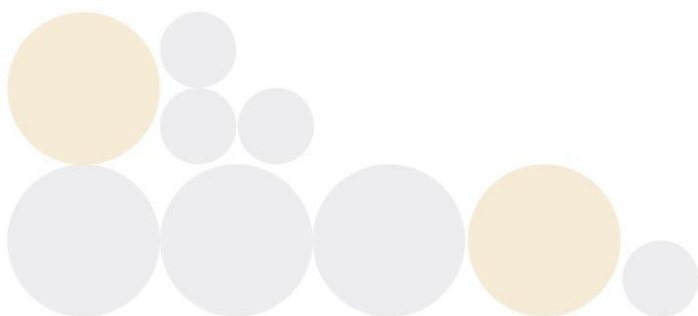

**A proud and secure tradition for today's investor.**

A trusted investment piece since 1999, the Royal Canadian Mint's renowned one-ounce gold wafer includes the latest, most advanced security enhancements for 2020.

Expect the same unsurpassed quality and guaranteed craftsmanship as in all years past, including a market-leading purity (.9999 fine) that is a testament to the Mint's world-famous minting and refining capabilities.

State-of-the-art security features include a uniform line pattern that adds a sleek contemporary design element to both the obverse and reverse. Using the same award-winning technology found on Canada's \$1 and \$2 coins, each gold wafer features two textured maple leaf security marks, micro-engraved with laser technology and visible only under magnification. Etched within this maple leaf are two digits indicating the wafer's production year.

Each 1 oz. gold wafer comes hermetically sealed in redesigned tamper-proof packaging that mimics the wafer's line pattern, thus providing a stunning presentation and an extra layer of security to protect your investment.

## SPECIAL FEATURES

The uniform line pattern on the obverse and reverse serves a dual purpose as a design element and an advanced security feature.

Includes the iconic laser-engraved security mark seen on Gold Maple Leaf and Silver Maple Leaf coins.

Visible under magnification, the micro-engraved "20" confirms the authenticity of your investment.

Each bar is uniquely and individually serialized to identify genuine authenticity.

## PRODUCT SPECIFICATIONS

Mint: **Royal Canadian Mint**

Item Number: **176380**

Composition: **99.99% pure gold**

Weight\*: **1 oz. (31.11 g)**

Dimensions: **50 mm x 29 mm**

## PACKAGING

Tamper-proof packaging mimics the eye-catching lined pattern on the wafer, and includes the assay certificate printed on the back of the card.
