

## 2016 1-OUNCE 99.99% PURE SILVER MAPLE LEAF BULLION COIN

### THE WORLD'S MOST SECURE SILVER BULLION COIN!

Since its introduction in 1988, the iconic Silver Maple Leaf (SML) has been a highly sought-after Royal Canadian Mint bullion investment coin. The SML is minted with one troy ounce (31.11 grams) of 9999 fine silver, and has a face value of \$5.

All 1-ounce 99.99% pure SML bullion coins have three unique features for enhanced security—radial lines, a micro-engraved maple leaf and Bullion DNA anti-counterfeiting technology.

### ENHANCED SECURITY

In 2013, the Mint introduced a new and unique security feature to confirm the authenticity of its Gold Maple Leaf coins. Derived from the same award-winning security technology applied to Canada's \$1 and \$2 circulation coins, the SML security feature consists of a textured maple leaf, micro-engraved with laser technology on a small area of the reverse side of the coin. In the centre of this mark, visible under magnification, is the numeral "16", denoting the coin's year of issue.

Bullion DNA anti-counterfeiting technology is an industry first that goes above and beyond coin authentication like no other. Every die used to produce SML coins is laser micro-engraved with an anti-counterfeiting security mark. Our registration process—digital non-destructive activation (DNA) technology—captures images encrypted with an algorithm signature, and stores these in our secure database. Combined with the proprietary Bullion DNA Reader and software, the coin's authenticity can be verified in an instant.

Radial lines in the 2016 SML's field have been precisely machined to within microns on the master tooling to ensure reproducibility from die to die and coin to coin. The uniqueness of the line width and pitch gives this coin a characteristic look, and creates a light-diffracting pattern that is specific to this coin.

SECURITY FEATURE

## SPECIAL FEATURES

- Three unique features for cutting-edge security, including precise radial lines, a micro-engraved leaf and Bullion DNA anti-counterfeiting technology, exclusive to the Royal Canadian Mint.
- An attractive acquisition for both first-time precious metal buyers and long-term investors.
- Face value of \$5 (CAD), the highest face value on the market for any comparable silver bullion coin.

## PRODUCT SPECIFICATIONS

Mint: **Royal Canadian Mint**  
Item Number: **150764**  
UPC: **6-23932-07299-2**  
Composition: **99.99% pure silver**  
Weight\*: **1 oz (31.11 g)**  
Diameter (mm): **38**  
Face Value: **5 dollars (CAN)**  
Finish: **Radial lines**  
Edge: **Serrated**
