

# Africa's majestic gold bullion coin.

## THE BIG 5 GOLD BULLION

Throughout history, gold has been seen as a valuable metal. Its unique and beautiful lustre, and investment value, makes it an important part of a diversified portfolio.

From the makers of the iconic Krugerrand, comes a new 24ct gold bullion coin series inspired by Africa's legendary Big 5.

This exciting new series is the first gold bullion offering since the 22ct Krugerrand was introduced in 1967.

Prestige Bullion's Big 5 Series I gold bullion coins follows the successful Big 5 Series I collectable coins, created together with the South African Mint as a celebration of Africa's unique natural heritage, strength and beauty.

### Big 5 Series I Bullion

The Big 5 24ct gold bullion range offers an exciting new investment portfolio option, and a vehicle to preserve lasting wealth.

The term "Big Five" originated when big game hunters came to Africa to hunt the most imposing animals for trophies, before conservation efforts became a priority.

A new Big 5 24ct gold bullion coin will be introduced every five years, beginning with the elephant, followed by the lion, the rhino, the leopard and lastly, the buffalo.

The African elephant is a symbol of strength and family unity. It is the largest living land animal and one of our most intelligent species.
